Your membership will allow us to continue to strive for reduced petroleum consumption, clean air, and an improved quality of life. Along with helping support many projects we are currently working on throughout Wisconsin, your membership would also included several benefits:

- Information on upcoming grants that will allow your company to save money on infrastructure, vehicles, or fuel, as well as information about projects and the latest alternative fuels news;
- Support for grant preparation or assistance;
- A representative from your company may serve on our Board of Directors and supporting committees;
- Access to Wisconsin Clean Cities events, which include seminars, meetings, and conferences;
- Networking opportunities with fleets and industry partners;
- Technical training, workshops, and webinars;
- Individual consultation and technical assistance; and
- Public recognition for progress in reducing petroleum consumption and assistance with media outreach.

BECOME A MEMBER TODAY!

Together we can “Drive Wisconsin Forward!”

Craig Fischer, Co-Chair, Dual Fuel Systems
Mary Smarelli, Co-Chair, Transit Express, Inc.
Katrina Bell, Treasurer, ANGI Energy Systems
Jeffrey Bach, American Diesel Systems
Matthew Carr, Cummins NPower
Joel Hirschboeck, Kwik Trip, Inc.
Matt Jarmuz, Odyne Systems, LLC
Carrie Kratz, Contract Transport Services, LLC
Jaime Mendez, AmeriGas
Bryan Nudelbacher, GAIN Clean Fuel
Bob Reagan, We Energies
George Stone, Milwaukee Area Technical College
Jeff Tews, City of Milwaukee Department of PW

It's that time of year again to fill out the annual survey and we need your help! We are collecting information based on your fleet's alternative fuel and advanced technology vehicles, idle reduction efforts, alternative fuel station openings and fuel economy improvements.

Help us show all the activity going on in Wisconsin by telling us about your efforts to reduce petroleum consumption and greenhouse gas emissions. It also provides Wisconsin with opportunities for funding alternative fuel projects and helps promote our coalition and our great state. **Plus, our annual stakeholder awards given out at the end of each year are awarded based on the data collected from this survey!**

Please note the survey includes petroleum reduction methods outside of using alternative fuels and hybrid vehicles. It includes methods like carpooling, telecommuting, low-rolling resistance tires, trailer aerodynamic packages, and switching to more efficient or smaller vehicles.
Ferrellgas has positioned itself as one of America’s leading propane companies. We were founded in 1939 in Atchison, Kansas, as a single location, family-owned retailer. Today, in what is nothing less than an American success story, we have approximately 1 million Customers in all 50 states, the District of Columbia, and Puerto Rico. Operating under the trade name Blue Rhino, we’re also the nation’s largest provider of propane by portable tank exchange.

Ferrellgas is also a leading provider of Autogas, which is the name given to propane when it is used as an on-road engine fuel. We serve fleet customers throughout the country and across the Badger State under the brand name FerrellAutogas.

When it comes to alternative fuels propane Autogas is far and away the best alternative. Approximately 98 percent of all propane used in the United States is produced domestically, reducing our nation’s reliance on foreign oil. Propane Autogas is an approved clean alternative fuel under the Clean Air Act of 1990 and the third most popular vehicle fuel worldwide behind gasoline and diesel. Propane Autogas fuels buses, light- and medium-duty trucks, vans, shuttles, taxicabs, and police and government vehicles.

Why Ferrellgas, you might ask? We’re a proven leader in the propane industry, and we’ve worked with school districts, public transportation companies, and utility companies in Wisconsin to positively impact their fuel budget, increase vehicle engine life, and reduce harmful vehicle emissions. We have 54 locations in Wisconsin, enabling us to serve residential, industrial/commercial, agricultural, and Autogas accounts in every county throughout the state. Bottom line, whether you have questions about vehicle options, on-site or public refueling, or the recently approved federal alternative fuel tax credits, Ferrellgas has you covered.

We’re proud of the close relationship we’ve formed with the Wisconsin Clean Cities Coalition, and we’re honored to work with so many smart, progressive businesses throughout the state. Please call Account Manager Paul Scozzafave today at 262-269-4144 or email him at PaulScozzafave@ferrellgas.com to discuss the many benefits of incorporating propane Autogas vehicles into your fleet.
ATTENTION members of Wisconsin Clean Cities! We are looking for a few of our members to co-host a webinar with us this winter for our Winter Webinar Series. This is a great chance to be able to share with our stakeholders information about your company, tell them a little bit more about who you are, what you do and why you became involved with Wisconsin Clean Cities. If you are interested or would like more information, please contact Erika Noble at: erika.noble@wicleancities.org or at (414) 221-4487.

MEMBER SURVEY

Your feedback is important to us! Please take a few minutes to provide comments about your Wisconsin Clean Cities membership for a chance to win a $25 Gift Card for the Harley-Davidson Museum (must complete by 1/29/16)!

Your responses are invaluable as we continuously review our membership services from the perspective of you, our member. Your answers and information will be kept confidential.

CLEAN CITIES SUMMER INTERNSHIP OPPORTUNITY

A college student studying business, communications, engineering, environmental science, marketing or public relations could earn up to $6,000 during a 10-week summer internship for a nonprofit organization sponsored through a U.S. Department of Energy program.

The Summer 2016 U.S. Department of Energy Clean Cities University Workforce Development Program is funding 34 positions in Clean Cities coalitions across the United States, including one for Wisconsin Clean Cities, Inc. (WCC). The application process is conducted online at Clean Cities University Workforce Development Program Application, concluding January 18. Applicants must be college juniors, seniors, graduate students or one year removed from graduation. The position is for 30 or 40 hours per week between June 6 and August 19, 2016.
